

REOPENING after COVID-19

**Are you looking to safely reopen your business in line with Government advice?
We are here to help you create a compliant Return Plan.**

The Challenge

Reopening for business during a continuing and unprecedented pandemic presents a unique challenge.

You have a clear statutory and legal duty to protect employees and users of your property against exposure to COVID-19, which is now by law a Notifiable Disease.

The Department for Business, Energy and Industrial Strategy states you should only reopen once you have completed a Risk Assessment and can provide evidence of complying with their COVID-19 secure criteria.

How can we help?

We understand the rigours of balancing the economic and social benefits of reopening with the uncertainty of user behaviour, the complexities of disruption insurance, the threat of liability and a requirement to justify your approach should a complaint be raised with the Health and Safety Executive.

We will help you prepare a tailored, robust and appropriate Return Plan to safeguard your people, minimise exposure risk and mitigate potential liability risk.

COVID-19 Reopening Toolkit

We arrive with sustainable solutions and leave you ready and confident to reopen.

Our Reopening Toolkit is phased to ensure a sustainable Return Plan, unique to your needs and budget.

PHASE ONE - Prepare Risk Assessment

- ▶ Detailed Audit and Inspection
- ▶ Comprehensive Risk Assessment
- ▶ Recommendations for reopening safely
- ▶ Compliance notice for public display

PHASE TWO - Implement Reopening Toolkit

- ▶ Implementation and milestone plan
- ▶ Building and facility reorganisation, sanitisation, staffing and PPE
- ▶ Managing people flow and social distancing
- ▶ Communications and staff briefing pack
- ▶ Assessment and practical ways of managing activities
- ▶ Training and Public Health guidance for Leadership teams
